

# Body Systems Assignment

---

**Due: Thursday 3/7/08**

First choose an organ from the list:

**Liver, Heart, Kidney, Lungs, Stomach**

Now use **Microsoft Office to create a poster** about the organ

It should **answer the following questions:**

- What is the organ called?
- What is the organ used for?
- How does the organ do its job?
- What other organs is it connected to?
- Which body systems is the organ used by?
- What would happen if you did not have the organ?

Your poster **should look great** and have at least **3 Photos**

Good luck!
